

Company Structures

The financial environment changes fast and it is difficult to predict in what way to set up your investment vehicle in order to meet demands of tomorrow. Discretion has been important in the past but has today a negative touch to it with the exchange of information between OECD countries starting 2017. The question is, how can I set up my business / wealth management in a tax efficient and effective way.

Swiss Management is monitoring the options for those clients who are in need of a professional solution for their business. Below you will find some of the structures that we offer:

- ✓ **Luxembourg** – on shore jurisdiction with good reputation. All sorts of structures possible depending on needs. Interesting tax environment. Investment funds as vehicle a further option. In many cases substance is a demand.
- ✓ **Scotland LP** – on shore jurisdiction. No accounting and audit demands if no business conducted in Great Britain. Tax free if profits from foreign business. The limited partnership means that the company is incorporated by partners and you will take over the company. Accepted by most banks in Europe.
- ✓ **Canada LP** – Same set up as for Scotland but a structure outside EU.
- ✓ **Mauritius** – of shore destination but works as on shore if needed. Accepted as holder of assets by local banks but only by few European banks. Needs local substance. Also trusts are a popular possibility.

What costs – what services!

- ✓ The price for such structures vary between EUR 2.500,- and EUR 9.000,- for the incorporation and EUR 1.600,- to EUR 4.000,- for the yearly management.
- ✓ Substance office in Luxembourg or Mauritius can be offered for between EUR 1.200,- to 6.000,- p.a. depending on needs.
- ✓ Accountant and audit services possible.
- ✓ Nominee Directors can be ordered for EUR 2.500,- p.a. depending on work load.
- ✓ Help with bank accounts in countries like Luxembourg, Latvia, Canada or Mauritius (case presentation and document delivery) can be offered for EUR 500,- per account.

Simply contact us and we will discuss the best solution matching your needs.
